

## LITTLE HOPE NOW OF FINDING MISSING TRANS-OCEAN FLYERS

### SEARCH CONTINUES OF TRACKLESS WASTES OF PACIFIC, HOWEVER

By Associated Press.  
San Francisco, August 22.—The aviation world turned eyes westward today and with a heavy heart watched aircraft, naval vessels and merchant ships continue their intensive search in the trackless wastes of the Pacific for seven members of the flying fraternity who flew down the airways from Oakland headed for Honolulu last week and have not arrived, or been heard from.

The efforts of 58 naval vessels, aided by merchant craft, steering a course along the 2,400 miles Great Circle between San Francisco and Honolulu, after a six-day search failed to reveal any trace of the three missing planes.—They, Miss Doran, the Golden Eagle and the Dallas Spirit.

**Rodgers Rescue Remembered**  
Residents of Honolulu, mindful of the rescue of the late Commander John Rodgers, continued to express hope that the missing fliers would be found. Rodgers was found nine days after his seaplane was forced down.

Unfrequented beaches on both the east and west shores of the Hawaiian Islands have failed to give any indication of airplanes or their crews. Every sampan (Japanese fishing boat) has been checked, but their occupants have brought no word or indication of hope.

William Malloska, Michigan millionaire and backer of the flight of the Miss Doran, said he would not give up hope of finding the plane and its occupants until seven days had passed. He believes the plane and its occupants may still be afloat, with the crew and Miss Doran half starved, but uninjured.

**Would Be Half Starved.**  
If the crew of the Miss Doran should be found as is Malloska's hope, they would have been tossed about the Pacific on a plane raft in a rubber lifeboat for more than 48 hours, half starved and baked

## TWENTY-FIVE NEW YORK CITY PROHIBITION AGENTS CUT OFF LIST BY ENFORCEMENT HEAD

under the blazing sun, judging by the Rodgers experience.

Failure of naval vessels to find any trace of the Dallas Spirit, carrying Captain William Erwin, which went down about 600 nautical miles from San Francisco on Friday night, has led aviation experts to believe that Captain Erwin's plane crashed and gave the occupants little chance to get a life raft.

An SOS message telling of a tail spin was the last word received from the Dallas Spirit.

Day and night, naval vessels have swept over the position and in the vicinity of the last position given by Captain Erwin and his navigator, A. H. Eichwaldt, but no trace of the occupants or wreckage of the plane has been sighted.

**Will Continue Its Search Till Thursday**  
By Associated Press.  
Washington, Aug. 22.—The Navy will continue until Thursday its search in the Pacific ocean for the lost San Francisco aviators, it was announced today.

The wide search begun by about forty naval vessels almost a week ago was to have ended tomorrow night, but in view of the disappearance of the Dallas Spirit, which set out to look for the Miss Doran and Golden Eagle, it was decided today to continue the quest two more days.

**Will Present "Old Fashioned Mother"**  
The ladies of the Zion's Rest church will present "The Old Fashioned Mother" Friday night, Aug. 26 at the Providence school house at 8:15 o'clock. The play will be presented for the benefit of the church. It has been announced. The ladies recently presented the play at Zion's Rest and it was witnessed by a large crowd. It was pronounced a good play.

## THREE WELL DRESSED YOUNG MEN HELD UP BANK IN DAYLIGHT

### OFFICERS SOON ON TRAIL OF MEN WHO SECURED SUM OF \$6,000

By Associated Press.  
Austin, Texas, Aug. 22.—A search with airplanes and automobiles bearing Texas rangers and county officers over Central Texas counties late today had failed to locate three youngish robbers who looted the University Bank here of \$6,500 this morning, but overlooked \$65,000 in the vault.

The robbers headed north out of Austin in their sedan, believed to have been the one which whizzed by a gang of road workers 15 miles north on the Round Rock road ignoring attempted warnings about a bad stretch of road.

Two airplanes manned with officers and flown by commercial pilots left this afternoon to aid the search.

By Associated Press.  
Austin, Texas, Aug. 22.—Three well dressed young men held up and robbed the University Bank here today of about 6,000 and escaped in a sedan, later identified as one licensed to a San Antonio Company. The robbers sauntered in took the available cash and rode away.

About \$1,000 was in cash, the remainder in Liberty bonds. About \$65,000 in cash and negotiable securities in the vault was undisturbed.

Officers got the license number of the car, 42-404, and learned from San Antonio officers that the license had been issued to the firm there. Rangers took up the pursuit when news of the robbery reached the capital.

Representative M. C. Parrish, president of the bank, was at McNamara, where he has another bank, when the robbery was perpetrated. The robbery occurred within a few feet of the University of Texas campus when students were on their way to classes.

**Command Bands Up.**  
Five employees of the bank were on duty at the time the young men, apparently from 21 to 25 years of age, walked in the front door and produced guns with the "preemptory command" "Hold your hands up."

Miss Maude Potts, seated in a rear office heard the command and rushed out the back door, went next door and telephoned officers. George R. Allen, who operates a shoe shop next door, also telephoned the officers. They spread the alarm while the robbery was actually taking place.

Clyde Parrish said the men came behind the tellers' window and ordered the employees in the bank to stand up against the west wall while they went through the safe.

He said one of the robbers stuck his pistol into his stomach and ordered him with the rest to stand up against the wall, but apparently was nervous.

**Overlooked Much Money.**  
The robbers, employees said, prodded all around the inside of the bank but overlooked several large packages of currency in a cabinet underneath one of the tellers' windows. These packages contained currency in one, five, ten and twenty dollar bills.

The robbers did not wear gloves and Raymond Thorpe, finger print expert of the local criminal identification bureau, put to work in a few minutes on what promised to be good clues.

Miss Potts also got the sedan number.

Moving at the rate of 50 to 60 miles an hour, a sedan containing three men, believed to have been the robbers, nearly crashed into a ditch just north of Austin. C. L. Wright, farmer, told officers. The car later was traced into a wooded pasture.

**San Antonio Car Used in Robbery**  
By Associated Press.  
San Antonio, Texas, Aug. 22.—Deputy sheriffs were rushed to the Austin-San Antonio highway this morning on the request of Travis county authorities who reported that three men had robbed a bank in Austin and were headed for San Antonio in an automobile.

Reports to the sheriff's office here said that the men were riding in a car, the number plates of which belong to a car stolen in San Antonio, Aug. 16. For this reason the men are believed to be San Antonio men.

**Congress Expected to Act.**  
Washington, Aug. 22.—A prediction that Congress will enact a law to prohibit long distance airplane stunt flights, except under rigid conditions was made today by Admiral Eberle, acting Secretary of the Navy.

San Angelo-Pipe Lines in this section now have value of \$25,000,000 and Illinois Pipe Line Company will build third from Yates Field.

## YOUTHFUL NEGRO DIED EARLY MONDAY IN ELECTRIC CHAIR

### ED JOSLIN, NEGRO, CONVICT OF ASSAULT ON VICTORIA CHILD

By Associated Press.  
Huntsville, Texas, Aug. 22.—Firmly declaring himself innocent Ed Joslin, 19 year old negro, died in the electric chair at 12:19 this morning for criminal assault on a seven year old Victoria girl.

Joslin was the youngest person ever electrocuted in Texas.

Joslin came into the death chamber unassisted and maintaining outward calm. A few minutes before he had wept in the death cell.

His last words were to thank prison officials for their good treatment of him.

"I have made my peace with God and am ready to go," Joslin answered when asked for a final statement. He coupled this with a denial of guilt.

**PROWLERS ENTERED  
LOCAL RESIDENCE;  
CASH IS SECURED**  
Sometime Sunday night, prowlers entered the home of E. M. Polk, 700 West Seventh avenue, and secured a small amount of money. It was reported Monday afternoon. The prowlers overlooked valuables and some travel checks, it is understood.

## TWO WOMEN WILL ATTEMPT FLIGHTS ACROSS ATLANTIC

### UNFAVORABLE WEATHER CONDITIONS HOLDING UP FLIGHT TO ROME

By Associated Press.  
New York, Aug. 22.—Two women aviators today had accepted the challenge of the Atlantic and announced that within the next few weeks they would attempt non-stop flights to Europe.

Mrs. Liuba Phillips, Russian pilot of sixteen years experience who came to this country four years ago, plans to pilot a Wright motorized Fokker monoplane from New York to an undetermined destination in Europe, while Miss Ruth Elder, of Lakeland, Fla., hopes to pilot a specially built Stinson monoplane from Wheeling, W. Va., to Paris.

Meanwhile unfavorable winds continue to hold the ground at Mitchell Field, Long Island, the Rome-bound Fokker monoplane Old Glory, while several test flights remain before the Stinson-Detrolter monoplane of Sir John Carling can take off on its projected flight from London, Ontario to London, England.

**Beaumont Editor Died Early Today**  
By Associated Press.  
Beaumont, Texas, Aug. 22.—Mike Welker, 43, veteran Beaumont newspaper man and until a few weeks ago active as editorial writer for the Beaumont Enterprise, died this morning of a throat infection.

## CHARACTER of Service

rather than quality of service, is the manifest measure of merit.

Fifty-four years' experience in financing the development of our section of Texas has made this institution one of the strongest in power of resource; and to merit this volume of business it has constantly adhered to sound banking principles.

other, please give old address as  
well as new. It will cause less de-  
lay and we can give much better  
service to our subscribers.

### HE DOESN'T "CHOOSE!"

Perhaps some of the president's  
best friends have accepted his "I  
do not choose to run" statement as  
meaning that he is not a candidate  
for another term, will not be a  
candidate and will not accept the  
nomination no matter how it may  
be forced upon him.

However that is by no means the  
invariable interpretation of his la-  
conic statement issued at Rapid  
City. While a great many newspa-  
pers and public personages do re-  
gard it as notice that Mr. Coolidge  
has definitely and finally removed  
himself as a candidate, there are  
others who see in the president's  
statement a mattress on which he  
can fall in case the fabled "pub-  
lic demand" should be sounded that  
he serve his party.

But the latter is a most humiliat-  
ing position in which to place the  
president. It actually accuses him  
of a form of political trickery which  
perhaps would be without parallel  
in presidential history. It assumes  
that the president, as basking as a  
babe, as reluctant as a Caesar, had  
actually erected an emergency land-  
ing stage upon which he could stand  
if the crowds came his way or de-  
sert if they didn't.

Politically shrewd as the pres-  
ident has shown himself to be, it is  
not conceivable that he would ar-  
range to dress himself up before  
the nation as a man willing to stoop  
to such cheap stagecraft as that.  
It would cost him so much of re-  
spect and admiration that he could  
scarcely expect the country to re-  
gard him as qualified for another  
term in the presidency.

The effort has been made to de-  
fine the word "choose" in the pres-  
ident's statement in its New Eng-  
land provincial sense as meaning  
that he has decided not to be a  
candidate. That seemed reasonable  
enough to persons familiar with  
Yankee colloquialisms, but on the  
head of that is the comment of the  
newspapers of that section of the  
country that the president's posi-  
tion may merely be that while he is  
not ambitious for another term, he  
is too much of a Republican and  
too much of a citizen to refuse to  
heed the call of service.

So it is apparent that even those  
best qualified to interpret his lan-  
guage are suspicious that he may be  
merely flirting with another nomi-  
nation, which makes it more than  
ever desirable, if the president  
wants to set his position clearly be-  
fore the public, to add something to  
this statement as to just what his  
intentions are. It is probable that  
until he does his motives must con-  
tinue a subject of speculation and  
suspicion by those who do not  
know his inner mind.

### BROADCASTING IMPOSITION

New York has held the palm for  
freak broadcasting too long for its  
laurels to be in danger, but the  
serious proposal to take a group  
of listeners through the horrors of  
an asylum for the insane, even to  
the babblings of the deranged and  
the shrieks of the maniacs, is car-  
rying realism to an extent which  
many people will find almost in-  
comprehensible in the ordinary re-  
quirements of good taste and pub-  
lic decency.

Such a precedent might conceiv-  
ably lead to attempts to broad-  
cast other examples of human suf-  
fering and shortcoming for the in-  
defensible purpose of creating a  
thrill in the hearer. There are  
home for incurables, schools of  
anatomy and hospital operating  
rooms, with their unhappy, yet in-  
evitable scenes of pain and an-  
guish. But whatever clinical pur-  
pose may be served by descrip-  
tions of such things, they are not  
for the public. Any attempt to  
display to the public in a motion  
picture theatre a film showing the  
technical details of an operation  
for appendicitis would be promptly  
squashed. And the proposal to  
turn a broadcasting program into

a mental clinic ranks about the  
same.

The Federal Radio Commission  
has indicated that a station which  
broadcasts talking machine records  
thereby impeaches its claim to be  
giving needed service, and made  
a rule requiring such broadcasts  
to be specifically introduced to  
the audience as records and not  
living voices or actual musical in-  
struments. It ought to take steps  
to prevent broadcasters from uti-  
lizing human suffering, sickness or  
madness to arouse in the unseen  
audience an interest which it can-  
not awaken and hold by legitimate  
methods.

### OUR NAVAL PROGRAM

The failure of the Geneva naval  
conference leaves the participant  
countries just where they were in  
sea strength, but it raises the  
question whether the United States  
ought to build up her navy to the  
British strength.

Now if we are going to build up  
to the British strength, it is evi-  
dent that we shall build large  
cruisers. Do we need them, or  
shall we build them merely to  
compete with Great Britain? If  
the latter, will not the British be-  
come apprehensive that our navy  
will not be equal with, but superior  
to hers, and will she not launch  
a competitive building campaign?  
And will not Italy, France and  
Japan follow suit?

It seems obvious that if this is to  
be the result of the Geneva parley,  
that meeting was a mistake. A  
more sensible course would have  
been the adoption of the Japanese  
idea of a naval holiday until 1931,  
when perhaps the five powers  
meeting to consider the extension  
of the Washington treaty might  
conceivably agree on a sensible  
program for all.

Before we decide on a wholesale  
cruiser program, we ought to see  
whether it will lead us, and whether  
it will lead the rest of the world.

### YOUR BANK ACCOUNT

This being the silly season, a  
dispatch from Washington says:  
"If your bank account doesn't  
amount to at least \$49.53, something  
is wrong. The treasury announces  
that there is \$4,744,415,637 in cir-  
culation among 117,061,000 people  
of the United States."

Of course circulation has nothing  
whatever to do with bank ac-  
counts. Circulation means coins  
and paper money. As a matter of  
fact, bank deposits in this coun-  
try amount to about \$5,000,000,000,  
so unless you have \$427 in the  
bank, you are below the average,  
taking the entire population into  
consideration.

The fact is, these 50 billions are  
owned by some 15,000,000 deposi-  
tors, with an average account of  
\$3,333. Which is slightly different  
from the figures announced in  
Washington.

### THE LEGION IN PARIS

What has been called the greatest  
peace-time movement in history  
began when 600 members of the  
American Legion sailed from New  
York on the President Harding  
for their Paris convention.

This was the first official sail-  
ing of the pilgrimage which will  
take 25,000 legionnaires back to  
visit in peace the lands they knew  
in war. On September 19 they  
will convene for their annual ses-  
sion at the Trocadero Palace.  
Visits to former battlefields, now  
green with rising crops; to ruined  
villages, now rehabilitated, will  
fill the remainder of their program.

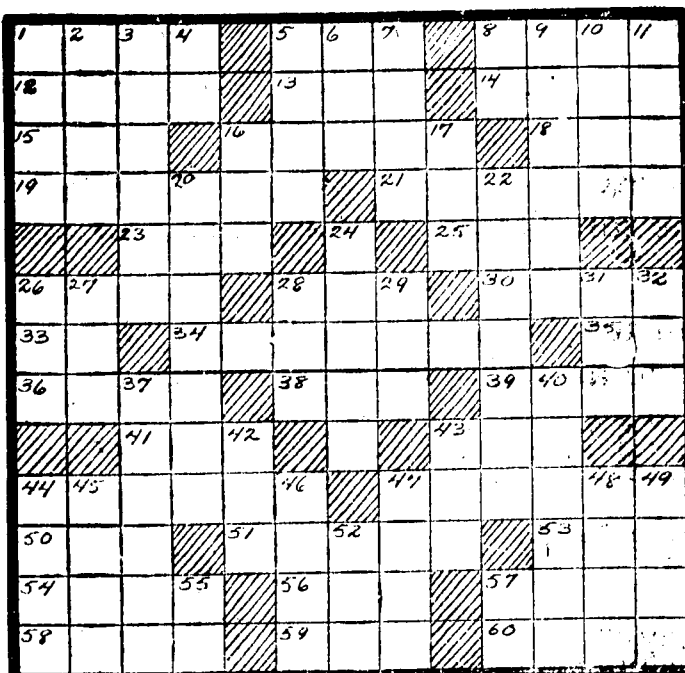

For many months special com-  
mittees of the Legion have prepared  
Paris for the convention. Their  
work was helped greatly by a group  
of unofficial and unexpected aides  
—Lindbergh, Chamberlin, Byrd  
and other trans-Atlantic fliers—  
who did much to strengthen the  
bonds of friendship between the  
French and the American people.  
By encouraging further that spirit  
of accord, the legionnaires will  
perform a notable deed for the na-  
tions they served ten years ago in  
war.

Nine chances out of ten your  
own importance is in your own  
mind. If you knew what other  
people really thought of you your  
inflated opinion of yourself would  
explode into a nothingness with  
that well known sickening thud.

The \$150,000 marble staircase  
which a New York auctioneer of-  
fers to sell for a dollar is said to  
be similar to those used in Holly-  
wood movie sets depicting the  
homes of people of moderate  
means.

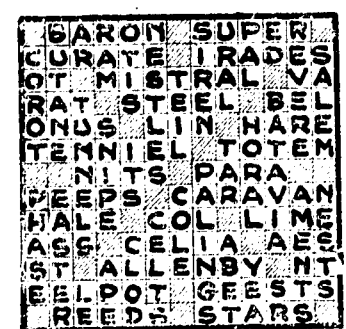

Some days a fellow bounds out  
of bed feeling like a new attitude  
record and retires feeling like a  
worm's rear axle.

Herewith is the solution to yes-  
terday's puzzle.

## POWELL MAN HAS CROP RECORD FOR THIS PART STATE

What is believed to be a record  
for consecutive farming in Texas,  
especially in this section, is the  
record of C. C. Jackson, Powell,  
Texas, 84-year-old Confederate vet-  
eran, who has not missed making  
a crop since the conclusion of the  
Civil War in 1865, sixty-two years.  
He is hale and hearty and does not  
intend to quit farming. This year,  
he is not raising cotton, but has a  
corn crop which made a good yield.  
Mr. Jackson was born in North  
Carolina, July 27, 1841. He moved  
to Tennessee while a small child.  
He enlisted in the First Tennessee  
Regiment, Heavy Artillery, when  
he was twenty years old. He went  
through the four year war without  
receiving a scratch. Speaking of  
his experience during the struggle  
between States, Mr. Jackson stated  
that the siege of Vicksburg was  
the greatest battle he participated in.  
He firing of this combat lasted  
forty-seven days and nights. He  
was in numerous other battles but  
he remembers the Battle of Vicks-  
burg the most vividly.

Mr. Jackson came to Texas forty-  
six years ago, in 1881, and settled  
in Navarro county where he has  
resided since that time.  
Five children are living, Charles  
Jackson, business man, Clovis, N.  
M.; Robert Jackson, teacher, El  
Paso; Mrs. LeRoy Newman,  
Powell; Mrs. Henry Harrison, Cor-  
sicana; Jim Jackson, farmer,  
Powell; John Jackson, dairyman,  
Corsicana.

FOR HOME AND STABLE  
The extraordinary Borozone  
treatment for flesh wounds, cuts,  
sores, galls, bumps and scalds is  
just as effective in the stable as in  
the home. Horse flesh heals with  
remarkable speed under its pow-  
erful influence. The treatment is  
the same for animals as for hu-  
mans. First wash out infectious  
germs with liquid Borozone, and  
the Borozone Powder complete the  
healing process. Price (liquid)  
20c, 60c and \$1.20. Powder 30c and  
60c. Sold by Lee Drug Company.

## OUTSIDE AID WILL BE USED TO REBUILD LOUISIANA SCHOOLS

By Associated Press.  
Baton Rouge, La., Aug. 20.—A  
check for \$75,000 from the Gen-  
eral Education Board and the prom-  
ise of a check for an additional  
\$25,000 from the Julius Rosenwald  
fund was received today by T. H.  
Harris, State superintendent of  
education.

The money is being sent to  
Louisiana for the use of the flood-  
ed parishes in putting their water-  
damaged school buildings back in  
good condition as the result of an  
appeal made to the directors of  
the two funds by Mr. Harris.

Mrs. D. L. Harrison was reported  
slightly improved at the Corsicana  
Hospital and Clinic Saturday.

## CALL FOR SPECIAL SESSION LOUISIANA LEGISLATURE ISSUED

By Associated Press.  
Baton Rouge, La., Aug. 20.—  
Measures to provide financial re-  
lief for the flood-stricken parishes  
of the State, to give the New  
Orleans Levee Board authority to  
make reparations for the flood  
losses in Plaquemines and St. Ber-  
nard parishes from the Carnar-  
n artificial crevasse, to enable  
the New Orleans to repair its drainage  
system to as to prevent overflows  
after heavy rains, and to perfect  
the title of the government to the  
site of the Veterans' Hospital at  
Alexandria, will be included in  
Governor Simpson's call for a  
special session of the State Legis-  
lature to begin on September 1.  
The time of meeting and the  
subjects of call were decided by  
the governor at a conference with  
his special advisory commission  
of 15.

## Ice Cream Supper Be Given Mildred

A social entertainment and ice  
cream supper will be given on the  
lawn of the Baptist church at Mil-  
dred Thursday night, it has been  
announced.

## WATER ENGINEERS SEEK RULING FROM ATTORNEY GENERAL

By Associated Press.  
Austin, Aug. 20.—An opinion will  
be sought from the attorney gen-  
eral before the State Board of  
Water Engineers decide whether  
it will act in accordance with the  
resolution adopted at the Allene  
water rights hearing calling for  
re-opening of the Colorado river  
power permit cases, it was learn-  
ed here today.

The board would not say what  
will be its attitude in the question  
if the attorney general's opinion  
holds re-opening of the case legal.

## Ralph Costa Is Back From Market

Ralph Costa, proprietor of Ralph  
Costa's Ready to Wear Store for  
women, has returned from several  
weeks spent in the markets of New  
York and other Eastern and North-  
western cities. Mr. Costa purchased a  
large stock of the latest in wom-  
en's wear things and is enthusias-  
tic over the fall business outlook  
for his store and all lines of busi-  
ness.

## Returns From Meeting Photographers in Ohio

Mrs. Jessie Dickerson has re-  
turned from Cedar Point, Ohio,  
where she attended a photograph-  
ers convention. Mrs. Dickerson ap-  
peared twice on the program of the  
convention.

## Farmers Want Column

Rates—One cent a word for each  
insertion. Count your words, send  
us to this office, giving number of  
times you want it to run, together  
with check or money order to cover  
cost. No ad taken for less than  
25 cents. Cash much accompany  
each ad.

TO RENT—Have good home to trade for  
a better one. Box 24, Powell, Texas.

## MRS. MYRTLE LOWE, SISTER DR. KELTON DIES IN COLORADO

Mrs. Myrtle Lowe, aged forty-  
two years, died Saturday morning  
in Colorado Springs, Colo., where  
she had been in Cragmor Sanita-  
rium for many months, according  
to a telegram received Saturday  
by her brother Dr. L. E. Kelton,  
of this city. Although Mrs. Lowe  
had been in ill health for some time her  
death was a shock and unexpected.  
Mrs. Kelton and two sons, Leslie  
and Phil, had only left Colorado  
Springs Friday where they had  
been visiting Mrs. Lowe. They are  
now en route to Corsicana via auto-  
mobile.

Mrs. Lowe is well known in this  
city having visited here on num-  
erous occasions and has made a home  
here who will be grieved and shocked  
to learn of her sudden death.  
She is survived by her husband,  
her mother Mrs. Nettie Kelton,  
Seattle, Wash.; five brothers, Dr.  
Walter Kelton, Seattle; Dr. L. E.  
Kelton, Corsicana; Horace Kelton  
and W. Kelton, both of San An-  
tonio; A. L. Kelton, Dallas; two  
sisters, Mrs. Jack Shelby, Temple;  
Mrs. Chas. Erickson, Seattle.

Funeral arrangements had  
been announced at press-time but  
it is thought the family will be  
brought to Corsicana for burial.

We extend to every cotton grower of this section our hearty invitation to visit us and test our ability to render you just the kind of service you really need, and at the same time assure you that we will appreciate an opportunity to serve you.

SQUARE BALE

A.G. SMITH GIN

ROUND BALE

Corsicana, Texas.

## COTTON INTERESTS PREPARE FOR GOOD SEASON IN CORSICANA

The four gins in Corsicana spent thousands of dollars in making extensive repairs and improvements during the off season and are now prepared to handle the present crop as rapidly as it is brought in.

Cotton is coming in steadily now and within the next ten days or two weeks the gins expect to be running full time, managers of the different gins stated Friday.

A. G. Smith spent several thousand dollars in installing a new cleaning system, making repairs and other improvements on the Smith Gin. The cleaning system is the very latest and is designed to assist in getting a better grade of lint when ginning "bollies."

Hopkins gin company installed a double cleaning system which includes an air cleaner and a new screen cleaner at an expense of several thousand dollars. Most of this machinery is designed for ginning "bollies." Other improvements were made also that will add much to the efficiency of the machinery.

Bankhead and Clements of the Corsicana Gin Company have installed a cleaning system and a double boll extractor. Other improvements were made in keeping with the desire of the management to have an up to date gin. Total cost for new machinery, repairs and improvements amounted to several thousand dollars.

S. S. Crews Gin has installed a triple cleaning system which includes a Hancock Burr remover. It was stated at the gin Friday morning that the Hancock was the original burr remover invented to handle the "bollies." Other improvements made at this gin brought the expenditure to several thousand dollars and gives them the very latest in gin equipment.

While all the gins have made general repairs and improvements to keep their plants modern and up-to-date most of the new machinery installed was to clean the cotton and give a better grade, especially in ginning "bollies."

Not only are the gins prepared to handle the crop but the two cotton seed oil mills, the Southland and the Navarro Cotton Oil Mill are well equipped for their line of work.

The Southland will start running Monday. It has been announced by the management and the Navarro Cotton Oil Mill expects to start operating about September 1.

The Corsicana Compress Company has spent about \$60,000 in improving the compress and mak-

ing preparations for the coming season. With well equipped gins, two cotton seed oil mills and a cotton compress Corsicana is well equipped to take care of the cotton crop grown in this section.

Corsicana is also a good market for not only cotton and cotton seed but all other farm products.

**CHILDREN'S FATAL DISEASES.** Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 25c. Sold by Lee Drug Co.

### COURT HOUSE NEWS.

**County Attorney's Office.** County Attorney L. J. Woods was advised by officers of Dallas Saturday morning that Solomon Pinson, negro, had been arrested there for Navarro county offenses. The accused negro is wanted in this county on a complaint for aggravated assault in connection with the hitting of another negro on the head with a stick several days ago in an altercation at Rice.

**Sheriff's Office.** Deputy Sheriff V. McMurray arrested two for drunkenness late Friday.

A white man is in the Navarro County Jail charged by complaint with the violation of the prohibition law in connection with the finding of 21 bottles of "choc" beer near Lake Hubbard Friday night. His car was confiscated. The raid was made by Deputy Sheriffs Peavehouse and V. McMurray, and Constable Allen Calloway.

Two negroes were arrested near Emhouse Friday night by Deputy Sheriffs V. McMurray and Deputy Constables and Constable Allen Calloway in connection with the finding of two gallons of alleged "choc" beer. They were lodged in the Navarro county jail charged by complaint with the alleged violation of the prohibition law.

Officers of the Sheriff's and constable's departments arrested two negroes, one who was driving and another carrying a pistol, for Ellis County officers Friday. It was alleged that the car in which the two negroes in company with another negro and a negro occupied by white persons in Ellis County. An argument is supposed to have ensued and one of the negroes drew a pistol and forced the white people to drive on. They were headed from Dallas to Corsicana and were apprehended near the Cors-

icana country club. Ellis county officers came for the negroes and they were turned over to them. A complaint against Levi Miller, one of the negroes, was filed here for carrying a pistol, by County Attorney L. J. Woods.

**Warranty Deeds.** J. N. Barham, et ux., to E. D. Thornton, 80 acres of the J. R. Meador survey, \$3,600.

**Marriage Licenses.** Joe King and Ola Mae Jackson.

Lewis Ivie and Estella Weaver. Carl A. Stewart and Anna Will Coggins.

**Constable's Office.** Deputy Constable E. K. Hervey arrested a negro for drunkenness Friday night.

**Justice Court.** Jimmy Orange, negro boy, plead guilty in Judge Sam R. Jordan's court to three cases of automobile theft and was fined \$5 and costs in each case. He will be sent to the county farm to work out his time.

Two entered pleas of guilty to drunkenness in Judge Jordan's court Saturday morning.

## TEXAS GROWERS OF CITRUS FRUIT FACE DANGEROUS PESTS

By Associated Press.

Houston, Texas, August 19. Texas citrus growers must prepare to marshal their protective force against a new enemy in the ranks of citrus pests in this country, according to George W. Allen, former secretary of the Mexican Gulf Coast Citrus Fruit Association, an organization of fruit growers in Mexico.

The Trypeta Ludens, or Mexican orange fly, Mr. Allen says in the Southern Pacific Farm News, issued here, is the pest referred to and is considered the most destructive of any affecting the citrus fruit industry. He advocates immediate and thorough eradication methods. Meanwhile the government has placed an embargo against all Mexican citrus fruits except the lime, which the fly does not bother.

Mr. Allen adds, however, that experiments connected with methods of controlling the pest in Mexico have demonstrated that it cannot live in low temperatures, hence it is natural to assume, he recites, that "there need be no danger of the fly getting further north than its present existence along the Rio Grande."

### Habits of Insect

It has been found, Mr. Allen recites, that the Mexican orange fly, which has been found in the Corsicana country club, Ellis county officers came for the negroes and they were turned over to them. A complaint against Levi Miller, one of the negroes, was filed here for carrying a pistol, by County Attorney L. J. Woods.

**Warranty Deeds.** J. N. Barham, et ux., to E. D. Thornton, 80 acres of the J. R. Meador survey, \$3,600.

**Marriage Licenses.** Joe King and Ola Mae Jackson.

Lewis Ivie and Estella Weaver. Carl A. Stewart and Anna Will Coggins.

**Constable's Office.** Deputy Constable E. K. Hervey arrested a negro for drunkenness Friday night.

**Justice Court.** Jimmy Orange, negro boy, plead guilty in Judge Sam R. Jordan's court to three cases of automobile theft and was fined \$5 and costs in each case. He will be sent to the county farm to work out his time.

Two entered pleas of guilty to drunkenness in Judge Jordan's court Saturday morning.

**For Sale**  
OUR SERVICE.

HOPKINS GIN COMPANY.  
Corsicana, Texas.

Ernest Sheehan is in the Corsicana Hospital and Clinic for treatment of head injuries.

cities in recounting discoveries relating to the growth of the fly and to methods of control, that the insect has four cycles with each transitory period covering from a week to four weeks. "In other words," he says, "the female fly deposits her eggs by stinging partially or wholly ripened fruit through the skin, the eggs being deposited in the pulp cells. After one week the eggs hatch into small maggots which then gradually eat toward the center of the fruit. There they remain eating glutinously for two or three weeks and then start to move through the outside of the fruit, finally eating through the skin and dropping to the ground where they bury themselves in the soil one-half to three-fourths inches deep. They remain there in the pupal stage for three or four weeks when through evolution the pupa becomes a fly."

Coming down to methods of control, Mr. Allen gives results of experiences which he says has reduced losses as high as 25 per cent to negligible infection. It was brought about, he asserts, by rigid orchard inspection, cleaning, spraying and other methods.

**Orchards Should Be Kept Clean.** He insists that all orchards should be kept clean of all dropped or rotten fruit. "Pick up daily," he advocated, "and bury deep with a sprinkling of quick lime. Under no circumstances allow fruit to lay on the ground over 24 hours period. Spray trees thoroughly with a mixture of water, sugar and lead arsenate. Spraying should be done in the heat of the day and after every rain. Cut down all fruiting cactus within 100 feet of an orchard, and all guava plants as well as papayas, which are clean of cover crops after August 1 and until fruit is harvested. Keep plenty of chickens, at least 100 to every 10 acres—they will pay for themselves as well as eat the orange fly. Pick all fruit as soon as ripened. This is very important. All fruits should be off the trees by January 15. Of course late Valencia would not ripen until March or April, but keep orchards well picked over."

"By a close observation of the above rules, you can stand out of the range of the fly, but it cannot be done by slack methods. Eminent vigilance is the price of safety—hence all growers must work together in a cooperative way if the valley is to be expunged of the menace."

## CONGRESS WILL BE ASKED TO SET ASIDE BIG FLOOD FUNDS

By Associated Press.

St. Louis, Mo., Aug. 20.—Congress, at its next session, will be asked to set aside an annual fund of \$100,000,000, or whatever amount may be necessary, to be used in flood prevention work, according to a report submitted at a meeting here today of the Mississippi River Commission.

The report, which also provides that the Federal government shall pay the present indebtedness of all local levee districts in the Mississippi Valley, said to aggregate \$250,000,000, was presented to the meeting by its author, W. G. Street, vice president of the Mississippi Valley Flood Control Association.

Delegations from Tennessee, Arkansas, Mississippi and Missouri attended the meeting.

## BREAK IS FOUND IN SAND FORMATION IN CHATFIELD WELL.

A break was found in the sand formation in the Magnolia H. L. Hodge 1 at Chatfield Friday and the H. L. is now in a sandy shale at 2550 feet, after encountering a hard white sand for more than 80 feet. No showing was found in the sand.

The Hicks-Hunt Friddy 1 in the Nigger Creek area is still above the chalk at 2541; this well is more than 300 feet deeper than the chalk was found in offset wells and no trace of the chalk has been found.

The Reiter-Foster Ward 1 is waiting for casing to set. Pipe was set at 2861, the maximum depth is 2579. A sand was found in this test several days ago and operations were shut down until casing could be set.

Work has been resumed on the Pandam Bassett 1 near Kossie after ten days of work on the rig. The bit is now about 5500 feet. The drilling in Brown limestone. The operators expect to pick up the "Trinity" sand soon. This well is the deepest in this part of the country by about 250 feet.

More difficulties were encountered in the Earl and Ragdale test offsetting the Elliott & Clark discovery well for the Humble in the Carey Lake region in Cherokee county. When the Lewis test became stuck about 10 feet off bottom Thursday an attempt was made to shoot the tester off. When the attempt was made Friday, the shot failed to fire and while coming out of the hole the line broke and left the shot and about 4000 feet of the shot line in the hole. The crew was preparing to fish out the shot Saturday. The Elliott & Clark 2 was still rigging up Saturday.

The Reynolds Mortgage Company No. 2 was drilling in the chalk Saturday at 2963. The chalk was topped at 2960 feet. The Southern Pine A-2 which was abandoned several days ago, was plugged and cemented Friday and the rig and derrick are now being dismantled. The Southern Pine B-1 was drilling Friday in the chalk at 5080 feet. The drill stem was broken out Saturday and preparations were being made Saturday to pull the line and a quarter inch casing and abandon the test. This is the second test to be abandoned by the Humble in this district during the week.

Rance Hunsacker of Purdon who had two fingers on his left hand amputated after having it mangled in a wood-saw, Friday was able to be moved home Saturday.

**BOY INJURED WHEN  
HORSE DUMPED HIM

## FIFTY-EIGHT YEARS OF HOUSEKEEPING FOR KERENS PAIR

Special to the Sun.

Kerens, Texas, Aug. 20.—Fifty-eight years of housekeeping has not altered the good cooking of Mrs. C. W. Speed, who has, for that number of years, provided her family with as many good things to eat as could be afforded from time to time. She is 78 years old, but one would never believe it. She and her husband, who has realized a little more than 31 years in this world, are enjoying good health. Mr. Speed is as spry as a young man, and has passed the same health examination as that of a fifty year old man.

Mr. and Mrs. Speed are the parents of 17 children, 11 of whom they reared to man and womanhood. They have 37 living grandchildren, and six great-grandchildren. This couple has resided in Kerens 27 years, having moved to this city from Black Hills, in Navarro county. They have lived in this county 51 years.

Mr. Speed came from Mississippi in an ox wagon.

**FUNERAL SERVICES  
FOR MRS. CUMMINGS  
SUNDAY AFTERNOON**

Funeral services for Mrs. Annie Cummings, aged 34 years, wife of W. P. Cummings, who died at Rusk Tuesday night, will be held Sunday afternoon at 1 o'clock at the Eleventh Avenue Baptist church, with the Rev. Mr. Watson officiating. Burial will be in the Bardwell cemetery. The cortege will leave the church immediately after the services.

Surviving are her husband and three daughters. The body arrived from Rusk Saturday and was taken to the family home, 1116 West Eleventh avenue.

**BOY INJURED WHEN

## LOUISIANA LEGION DELEGATES ASK FOR CONTROL OF FLOODS

By Associated Press.

Shreveport, La., Aug. 20. Charles E. McKenzie of Monroe was elected commander of the Louisiana Department of the American Legion at the closing session of the department here Saturday. Steve Alford of Lake Charles was elected vice commander and Dan W. Sparlock of Shreveport, regional commander, was elected national executive committeeman. R. L. Denham of Mansfield, was chosen sergeant at arms.

The many friends of Mrs. C. H. Howard will be glad to know that she is able to be up and walking a bit after having a needle removed from her foot at the County Hospital nearly three weeks ago.

## ATTENDANCE FIRST METHODIST CHURCH SHOWS INCREASE

**CHURCH SERVICES AND SUNDAY SCHOOL ALL WELL ATTENDED YESTERDAY**

There was an increased attendance at all services at the First Methodist church Sunday. At Sunday School there was a total of 236 present; this compared with an attendance of 115 last Sunday, showing an increase of 121, and compared with an attendance of 535 the same Sunday last year shows an increase of one. In the Weller Bible Class there was an attendance of 52; this compared with an attendance of 37 last Sunday shows an increase of 15, and compared with an attendance of 28 the same Sunday last year shows an increase of 24. At both church services the attendance was good, especially at the morning service.

In the Adult Department, J. T. Newson led the singing and Hoyce Martin presided and in addition to the reading of the lesson, songs and prayer, Festus Pierce, captain of the local artillery unit, made a ten-minute talk on the recent encampment held at Palacios, the boys having returned Saturday.

In the Weller Bible Class J. T. Newson taught the class and S. W. Burdine, president, presided. Mr. Burdine has been away on a four weeks vacation to Colorado. He explained that he had been to Sunday School and church each Sunday in Colorado Springs and told of the churches and Sunday Schools he had visited.

At the morning church hour, Rev. Joe Patterson, junior pastor, preached, using as his subject, "Dare to Be Different." The choir sang an anthem. At the night hour, Rev. Mr. Patterson preached on the subject, "A Call to Service," and the choir sang an anthem.

Among the announcements made by Rev. Mr. Patterson was one in regard to the Sunday afternoon women's prayer service; meeting of the Missionary Society Monday; the death of Mrs. Fred Blackburn in El Paso Saturday. Mrs. Blackburn was formerly Miss Mattie Collier, daughter of Mrs. Pauline Collier, a member of the church; prayer service Wednesday night, and also that Rev. Mr. Culver was absent from the city, being in Commerce, Texas, where he preached the commencement sermon Sunday for the East Texas State Teachers' College for the close of the summer term. Rev. Mr. Culver will return to Corsicana this week and will fill the pulpit at both hours next Sunday.

SKYLINE POUND PAPER, 3 POUNDS \$1.00.—City Book Store.

## POULTRY SHOW AT TEXAS STATE FAIR EXPECTED BE BEST

**CAPACITY OF FIVE THOUSAND BIRDS WILL BE TAXED THIS YEAR, STATED**

Special to the Sun.

Dallas, Texas, Aug. 22. The poultry show at the State Fair of Texas, Oct. 8 to 23, will be the largest ever held in the Southwest, according to Walter Burton, of Dallas, head of that department for the past 15 years.

When Mr. Burton began the show room at the disposal of the poultry industry cooped about 500 birds. It answered its purpose then, for the industry had not grown to its present great proportions. As time went on the space was gradually enlarged until now the building has a capacity for displaying over 5,000 birds.

Even with all this space at his command, it will hardly hold the 1927 exhibit, according to Mr. Burton, for the entries are coming in from all parts of the country and he therefore advised all intending exhibitors to apply for space early.

The State Fair of Texas looks forward to the greatest attendance in its history in 1927, because of the splendid condition of all crops and the recent increase in the price of cotton, which added millions of dollars to the wealth of the farmers and planters. Moreover, more and more of the farmers are giving intelligent attention to poultry raising and this year thousands of them plan to invest in birds of the best breeds as the nucleus of larger and better flocks.

Over a million people will visit the poultry show this year, it is predicted, and Mr. Burton believes that the poultry man can get no better publicity than at the State Fair and this, he says, is proved by the fact that the same exhibit comes back year after year and always does well.

There is no question about Mr. Burton's enthusiasm and his knowledge of his business. He is always on the alert to look after the interests of the exhibitors in his department. Even the humblest of them receives earnest attention, one of the reasons why the Poultry Show at the State Fair always has been a success.

Nevertheless he is very strict as to the quality of the birds offered for exhibit, and this is as it should be, the best exhibitors say. Burton also sees that each year a splendid educational program is offered the visitors, with such authorities as Professor Reid, of the Department of Poultry Husbandry and others of like reputation as the principal speakers, offering a post graduate course in poultry raising for local success.

The Texas Baby Show, Oct. 24 to 28, will meet at the fair grounds this year, instead of elsewhere, as in the past. There will be an interesting and profitable program. Entries in the poultry department close Saturday, Oct. 1st. White Roy Rupard, Secretary, State Fair of Texas, for a complete premium list of the poultry department.

## KERENS GINS ARE GETTING RUSHED AS COTTON POURS IN

Special to the Sun.

Kerens, Texas, Aug. 22.—The four cotton gins here are getting a big rush as many bales of cotton are pouring in daily. Both the gins at Round Prairie and Round Shale, near here, are also reporting big ginnings, and the yards in Kerens are beginning to look like late fall months in the cotton business.

Up to Friday noon there had been 1635 bales of cotton weighed in Kerens by the Kerens Warehouse and Cherry Cotton Yard. Cotton has been, and is opening rapidly, and cotton picking in earnest is in full swing.

The call for 1,000 cotton pickers in Kerens is being answered all along, and during the past few days automobile loads of hands have been arriving in this place.

There is yet some young cotton to open, which if unharmed by insects and dry weather, will insure a good fall business, it is believed. However, it is reported by several Elm Flat farmers that leaf worms have made their appearance, and are working on the plant. Airplane gusts of calcium arsenate have been used on and near the Chapman farm, four miles southwest of Kerens in order to check these cotton pests.

## Change in Local Shoe Store Force

M. Terry, who has been connected with the local store of the Jolesch Shoe Company, has gone to Waco to open a ladies shoe department for the J. J. Schaefer Shoe Company and Ed Ables of Paris has been secured to fill the vacancy here. Mrs. E. R. Johnston has also been employed to work in the hosiery department of the local store.

## THREE MEN CAUGHT HERE FOR OFFICERS IN GRIMES COUNTY

**GET QUICK TRIAL AND HAVE BEEN RETURNED TO STATE PENITENTIARY**

Something in the nature of quick and sure justice may be pointed to in connection with the sending to the penitentiary on burglary charges of three men captured in Corsicana recently by Officers Nitt and Griffin of the local police department. The men were charged with burglarizing stores in Navasota on August 1; were captured here by the local officers on August 6 and on August 18 they were sentenced to the penitentiary and taken to Huntsville the same day from Anderson, county seat of Grimes county.

The men were taken up here on charges of carrying and with peddling without a license. They were found to have certain goods in their possession that answered the description of articles stolen out of Navasota a few nights previously. The men were later turned over to Sheriff Hudson of Grimes county by Chief Will S. Knight and they were taken back for the purpose of connecting them definitely with the burglary of two stores in Navasota.

A day or two later Chief Knight received a message stating that the three men had been fastened on the three men and that a special session of district court had been called to try them.

Officers Nitt and Griffin were called to Anderson as witnesses in the cases and they were the state witnesses. It was also found that the men had prison records as the following received by the local police department from Huntsville, where the three men were received last Thursday, shows:

R. J. Piper—Sent to the penitentiary from Grayson county for introducing stolen property, July 23, 1923; sentence, two years; discharged January 28, 1927. August 18, 1927; sentence, three years. Luther Bone—Sent to the Arkansas State penitentiary at Little Rock on July 28, 1925, for one year for grand larceny. He served his time and received six years for the Navasota burglary.

Roy S. Towles, alias Roy Haddock, sent to the penitentiary from Jones county for an attempt to commit burglary on January 28, 1925; sentenced to three years, escaped from the Imperial State farm January 22, 1926; recaptured and returned same date; discharged at the expiration of his term on July 30, 1927 and sent back August 18, 1927, for burglary committed August 1, 1927, one day after being discharged from the prison. His sentence for the Navasota burglary was two years.

## Praying Engineer Sits At Throttle Of Limited Train

A praying, preaching engineer is David J. Fant of Atlanta. Before every run he offers an invocation for safety of his passengers. By Associated Press.

Atlanta, Aug. 22.—As the giant engine of a fast New York-New Orleans train burns the rails on the trip between Charlotte, N. C., and Atlanta, it carries at the throttle a praying, preaching engineer.

David J. Fant is his name, and he has never had a serious accident. On every run for many years, before mounting the cabin to send his engine dashing through darkness or bright sunlight, storms or fair weather, he has prayed for the safety of his passengers.

Before he was assigned to the fast train, Fant had an engine the emblem of which was an open Bible, with the inscription "Thy Word is Truth" engraved across its open face.

## Woman Leads Big Fight For Sacco and Vanzetti

Fiery Irish Miss Is Dynamo of Forces Fighting to Save Agitators

BOSTON, MASS. (I-I-N).—If by any chance, Sacco and Vanzetti should win their battle against the State of Massachusetts and regain their liberty, they'll have Mary Donovan to thank.

Miss Donovan is the dynamo of the defense committee. For months past, and for years before, she has worked night and day to keep the campaign going.

When others were ready to quit, declaring that the case was hopeless, it's always been Mary Donovan who has instilled the workers with new enthusiasm and courage. She refuses to be beaten.

Being a Donovan, she's Irish—and it's proverbial that the Irish never know when they're licked.

Miss Donovan, peculiarly enough, was employed in the State House when she first became interested in the two men accused of the world-famous payroll murders.

She didn't think Sacco and Vanzetti were getting a square deal, and she didn't hesitate to air her opinions.

With the result that she incurred the displeasure of her superiors.

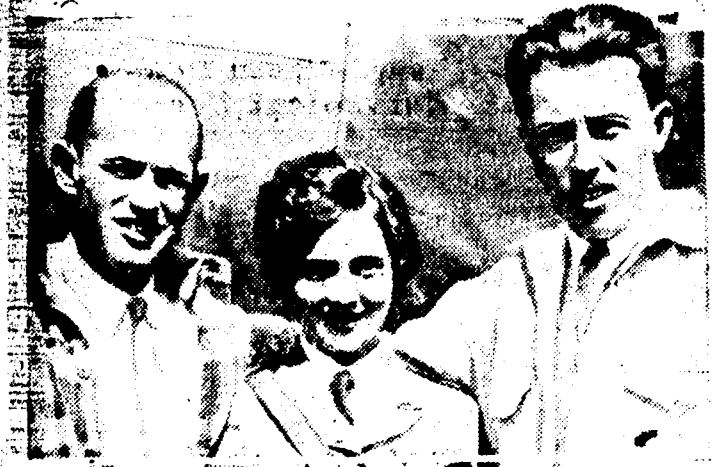

And between these two happenings she found herself plunged right into the midst of the battle to save the Italians from execution.

Practically every move made by the defense has had its inception in the brain of Mary Donovan. And it's certain that she'll continue to inspire the fighting workers, and all with new zeal, until the campaign is definitely decided, one way or the other.

Miss Mary Donovan, of Boston, is credited with supplying most of the force behind the activities of the Sacco-Vanzetti defense committee.

## SOUGHT ON BROAD PACIFIC

Ships of every size comb the Pacific Ocean between San Francisco and Honolulu searching for the three people shown above: Left to right: John Aughey Pedlar, Mildred Doran and Viles Knope, the three occupants of the Miss Doran, missing plane in the Dole race. (International Newsreel)

## SEARCHING FOR HEAVEN

John D. Humphries, of Atlanta, Ga., one of the most distinguished lay astronomers in the South, believes that there is room for a physical heaven in the skies. He's shown with a young friend studying the stars. (International Illustrated News)

## Physical Heaven in Skies Possible, Says Astronomer

ATLANTA, Ga. (I-I-N Special).—Heaven may actually exist in the skies! That is the claim of John D. Humphries, superior judge of Fulton County and one of the best known lay astronomers of the South.

Humphries takes issue with the assertions said to have been made by the late Luther Burbank and others, and attacks the charge that there is no place in the uncharted regions of the universe big enough to contain the biblical Heaven.

"Scientists have found that our system of measurements are not big enough to measure distance in the firmament," he said. "The figures in our miles would run so large that the human brain could not encompass them. So they have invented the light year, which contains a million millions of our miles. The distance from our little earth to some of these stars are many thousands of these light years."

"In all probability, the stars we see in the skies have other solar systems of their own, larger and much more beyond our comprehension."

"Therefore, we see that science itself refutes the claims of scoffers that there is no place big enough for Heaven. Their idea of the limits of space is encompassed in their own puny minds. Space is

limitless. If you can't begin to really understand what this means, then you are not fit to discuss it. Out beyond all these solar systems of this world and the other worlds we see in the skies is a vast theatre of space where Heaven may be. It is not for man on this earth to say there is no physical Heaven. I believe there is, and how any man can study the stars and doubt it is beyond my comprehension."

Heaven, according to the Revelations of St. John, the New Jerusalem, is a square city, 12,000 furlongs in each direction.

If the biblical furlong is equal to the modern, this would cover a territory 1,500 miles on each side, and would be about 22,500 times as large as Washington, D. C.

## Man Behind the Dratt Returns to Civil Life

Major General Enoch H. Crowder, who engineered selective draft and later rendered brilliant services to the government in Cuba's tangled affairs, retires from official life on Sept. 1. Crowder will take up practice of law. (International Illustrated News)

## YOU CAN BUY IT IN CORSICANA

## TEETH FOR LIFE!

Manny, Woman's Faithful Friend, May Live, But Never Again Know Taste of Marrow

ATLANTA, Ga. (I-I-N Special).—Manny, who for sixteen summers has romped the streets and yards of Atlanta, is under sentence. All of Manny's bone-worn teeth are condemned to extraction. And thus Manny ends his days in disgrace.

Manny was out on the street the other day. Just scouting around, you know. Hunting for cats, but rather hoping he wouldn't find any, because sixteen years is a ripe old age for dogs, an age in which spark of battle is dull.

He espied a neighbor's youngster, and for some reason, probably just in play, nipped him.

Manny was taken into custody and duly arraigned in the City Recorder's Court.

Tearfully his mistress pleaded for Manny. In all of her eighty-seven years, Mrs. Frances Edwards said, she never had a better friend than Manny. Fortune and death had taken many from her in her life, but Manny had been loyal for sixteen years; he would be loyal until he, too, was called by death.

Furthermore, Mrs. Edwards told the court, Manny's teeth are worn dull. He would not give a vicious bite, and he cannot.

The Recorder listened sympathetically. The law of the State of Georgia provided that Manny must die, but the Recorder resolved to temper the law with mercy. He granted Manny's life, but decreed that his teeth must be extracted.

And thus the rest of Manny's days will be biteless and boneless.

## JUSTICE, SHORN OF FRILLS

Dr. Arthur S. Libby, Mayor of North Atlanta, Ga., runs a court of conciliation, where townfolk may bring their troubles. Technicalities and lawyers are barred, justice and not legal status is the principle of the court, and the courts decisions, possibly as a result, find favor. (International Illustrated News)

## No Lawyers in This Court; and Everyone Is Satisfied

NORTH ATLANTA, Ga. (I-I-N Special).—A court without wrangling lawyers, lawyers' fees, delays, procrastinations, technicalities, or rhetoric! Sounds startling!

Yet it is a court of justice; not in spite of its simplicity, but because of it, say its friends.

It is the Court of Conciliation organized by Dr. Arthur S. Libby, Mayor of North Atlanta. Dr. Libby saw his friends and townspeople constantly becoming involved in litigation that usually brought them nothing, but did enrich those who profited on the manufacture of justice. Its ties, but simple inquiries designed to determine to organize a court that to get to the bottom of the matter would settle disputes and bring at hand.

There is no one to coach witnesses there is no one to object to the questions. Then Dr. Libby renders his decision. It is final. It is based on simple justice, not technicalities or lawyers' authorities.

"Penny no one ever thought of the plaintiff states his case. The defendant replies. The judge asks both sides questions; not technical questions, but hypothetical profound questions, not hypothetical profound-

## The Bluest City in the World!

"Pink" at Last Turn in Opposition to Faithful "Blues"

By CLARK CLARK, International Illustrated News Staff Correspondent.

OCEAN GROVE, N. J. (I-I-N).—Back to the days of the Puritan fathers! Here's one place in the United States where the bluest of blue laws—and all of 'em—are rigidly enforced. Here's a summer resort where you'll get pinched if you dare take a dip in the water on Sunday—where you face arrest and imprisonment if you're seen buying a hot dog!

To prevent motorists from going through the town on the Sabbath, huge chains have been hung across the main street, effectually stopping all traffic.

For fifty-eight years the Camp Meeting Association has been holding forth at Ocean Grove. The Rev. Dr. Charles M. Boswell, president of the organization, has always boasted that his followers have brought about the creation of a genuine "holy city" in New Jersey.

But now the Sunday quiet is threatened. Several hundred citizens have banded together and, headed by Mrs. Martha F. Kunst, have appealed to Governor Harry A. Moore of New Jersey. In their petition they allege that the blue laws are turning Ocean Grove into a real "deserted village."

Here are some of the high crimes and misdemeanors that are on the "blue list" on Sundays:

Parking a car on the street on Sunday.

Delivering a telegram or special delivery letter on Sunday.

Reading a newspaper on Sunday.

Mrs. Martha F. Kunst

Selling anything on Sunday, including drugs and medicine.

As a result, Ocean Grove is as calm as a door nail over the week-end, when other summer resorts are gathering in the shokels. And that's particularly galling to the shopkeepers and store owners.

"Anybody who doesn't like our laws can get out," asserts the Rev.

—AND NOT A DRUG STORE OPEN!

Dr. Boswell. "We compel applicants for real estate to furnish proof of their high moral character, and furthermore bind them to observe our regulations before they can purchase property here. Our laws are iron clad and nobody can break them."

But Mrs. Kunst is sure her campaign will end with the complete rout of the blue laws.

"They've turned Ocean Grove into a slough of despond," she says, "but they're going to snap out of that. Down with silence! Down with that. Down with silence! This is 1927—not 1827 when these laws were first formulated. Three cheers for the Red, White and Blue—and down with the other kind of blue!"

Both sides announce they're ready for the issue.

### TEXAS PIONEER IN ESTABLISHING HOMES FOR ITS TEACHERS

LONE STAR STATE LEADS NA-  
TION IN NUMBER AND VAL-  
UE OF TEACHERAGES

By Associated Press.  
Austin, Texas, August 22.—Tex-  
as, the first state to establish  
homes for public school teachers,  
before the Civil War, now leads  
the nation in the number and val-  
ue of "teacherages." It was reveal-  
ed today in a report of William El-  
lers, rural supervisor in the state  
department of education.

At the last accounting, Texas  
had 1,028 teacherages valued at  
\$1,144,033. The number is believed  
to constitute one fourth of the  
total in the United States, com-  
pared with the best available fig-  
ures from other states.

The homes in most cases are  
good, commodious, substantial  
structures. The one at McAllen,  
Hidalgo county, known as the fac-  
ulty club, cost \$40,000 and is believ-  
ed to be the most costly in the  
south. The one at Graham, Young  
county, cost \$20,000; the one at  
Weslaco, \$13,330; the one at Fair-  
view, \$9,000. Carrizo Springs and  
Crosbyton each have a teacherage  
costing \$5,000.

In fact, there are only eight  
teacherages in independent  
school districts that cost less than  
\$1,000.

Of the total amount of teachers  
homes, 865 are in common school  
districts for the whites and 19 for  
negroes, while independent districts  
have 136 homes for white teachers  
and five for negroes. The Julius  
Rosewald fund gives financial aid to  
negroes for building teachers homes,  
which must meet stipulated building  
requirements.

The first teacherage was built in  
1850 in the Blum district in Guada-  
lupe county, which now leads the  
state in numbers, having 25 white  
and three negro homes. A Mr.  
Schwentke, the Blum professor, was  
the first occupant of the home. In  
1862 he joined the Confederate  
army and was killed in battle. The  
same year, another teacherage was  
built in Guadalupe county, this in  
the Schumanville district, where a  
national record has been set for  
continuous occupancy of a teacher-  
age. The first building was replaced  
by a new one in 1884, and from  
1884 until now, H. E. Dietel has oc-  
cupied and taught school in the  
district. The "long time" record is re-  
cognized by the Bureau of Education  
at Washington.

The Millheim teacherage in Aus-  
tin county, has been occupied for  
46 consecutive years by different  
teachers.

During the last few years the  
teacher home movement has con-  
centrated in West Texas. About  
four fifths of the schools in Lub-  
bock and Lynn counties have  
homes.

Teacherages are built with bond  
issues voted as for addition to the  
general school plants.

After Guadalupe county, Lavaca  
and Limestone counties are next in  
the number of teachers homes, hav-  
ing 19 each. Van Zandt and Wil-  
barger counties have 17 each; Has-  
kell, Hidalgo, Comal and Lynn  
counties, 15 each; Kaufman, John-  
son and Runnels counties, 13 each;  
Austin county, 12; Karnes, Childress  
and Gillespie, 10; Andrews, Erath,  
Hall, Jones and Nueces, 8; Col-  
lingsworth, Dawson, Floyd, Harris-  
on, Knox, Milam, Scurry, Wharton,  
and Young, 7; Collin, Comanche,  
Coryell, Dewitt, Dickens, Fort  
Bend, Frio, Hale, Hopkins, Medina,  
Montague, Nacogdoches, and Na-  
varro, 6; Bell, Calhoun, Colorado,  
Cottle, Falls, Hardeman, Hays, Hill,  
Live Oak, McCulloch, San Saba,  
Stephens, Stonewall, Swisher, Tar-  
rant and Taylor, 5.

### FUNERAL SERVICES SUNDAY AFTERNOON CORSICANA WOMAN

Funeral services for Mrs. Annie  
Cummings, aged 34 years, wife of  
W. P. Cummings, who died Thurs-  
day night at Rusk, were held at  
the Eleventh Avenue Baptist  
Church Sunday afternoon at 1  
o'clock with the Rev. Mr. Watson  
officiating. The cortege left im-  
mediately for Bardwell, Ellis  
county, where interment was made.  
Surviving are her husband and  
three daughters.

The body arrived from Rusk late  
Saturday and was taken to the  
family home, 1416 West Eleventh  
Avenue.

#### In Memory

On August 14, 1927, death entered  
the home of Clyde Wilson and  
claimed the wife and mother, Nena.  
She was born at Kereus, Novem-  
ber 15, 1892. A husband and four  
children, an aged mother, Mrs. W.  
T. Norred, and other relatives sur-  
vive.

'Tis not our right to question,  
Nor mourn at God's ways.  
But the human heart is selfish.  
And fain would have its sway.

We longed to keep her with us,  
Who need her guiding hand,  
Who miss her loving presence,  
Her gently wise commands.

We'll think of her as leading  
Us to a better life.  
With a still small voice to shield us  
From all of earth's rough strife.  
EMMA.

### PLANS COMPLETED FOR OPENING LOCAL TERRACING SCHOOL

NAVARRO AND FREESTONE  
COUNTIES JOIN IN SCHOOL  
AT ODD FELLOWS HOME

All plans have been completed  
for the Navarro-Freestone county  
terracing school which will be held  
near the I. O. O. F. Home Wednes-  
day and Thursday, August 24-25,  
according to an announcement made  
Monday morning by Henry Gentry,  
county agent. All those who will  
attend are urged to meet at the  
Corsicana Chamber of Commerce  
headquarters at 9 o'clock Wednes-  
day morning. Mr. Gentry stated  
that indications pointed to an at-  
tendance of approximately 200 per-  
sons.

All of these in the county who  
have been terracing land are given  
a special invitation to attend the  
school and bring their levelers to  
the school.

Special representatives from sev-  
eral farm magazines and publica-  
tions will be on hand for the  
school.

R. H. Bush of the Chilean Sta-  
tute Educational Bureau, Hous-  
ton; D. B. Shelton, county agent,  
Freestone; J. M. Martin, Hillsboro;  
J. O. Moorsburg, Athens, and others  
will be on hand.

At a recent meeting held at  
Groesbeck, there were about 200  
present and those in charge of the  
school here are expecting a like  
number.

#### Stop That Itching

Use Blue Star Soap to clean the af-  
fected parts, then apply Blue Star Remedy.  
It penetrates the skin, kills out the germs,  
stops the itching at once, and restores mu-  
cous to a healthy condition. Eczema, Tis-  
ter or Cracked Hands, Poison Oak, Ring  
worm, Sore Blistered Feet, Sunburn, Old  
Shin Sores—all of these have yielded to  
its wonderful healing power. 60c and \$1.00  
a Jar. Soap 25c.

### MUCH CORN BEING SHIPPED OUT FROM HUBBARD THIS YEAR

Hubbard, Texas, August 22.—The  
biggest out of town shipment of  
corn is being made this year since  
the bumper crop of 1901, local deal-  
ers announced. The shipments of  
corn this month will be more than  
thirty cars. The corn is bringing  
sixty cents per bushel.

The first car of crushed maize  
ever shipped out of Hubbard was  
loaded here Friday. The corn is be-  
ing shipped to dealers at Waco  
and Fort Worth.

"Corsicana Has It."

### FIFTY-FOUR YEARS IN PRISON RECORD THIS AGED NEGRO

HAS SERVED ELEVEN TERMS;  
PARDONED, SAYS HE WON'T  
BE BACK AGAIN

By Associated Press.  
Huntsville, Texas, August 22.—  
Fifty-four years behind the walls  
of the Texas State Penitentiary is  
a long time to stay at any one  
place, but that is how long one old  
weather-beaten negro served for the  
State of Texas, according to prison  
records.

Bill Johnson, 78 years old negro  
from Harris County made the re-  
cord. Bill passed through the big  
steel gates of the "walls" for the  
first time January 18, 1872. He was  
only 24 years old. Bill's first "jail  
to the pen" was for a short term,  
but as it was during the recon-  
struction days in the south, Bill  
could not find any work and as the  
last resort he burglarized a house  
and was caught.

Before he had time to collect his  
thoughts he was again clothed in  
the regalia of a convict. Bill jour-  
neyed back and forth from the peni-  
tentiary on eleven different occa-  
sions, as soon as he would serve  
one term he would come back with  
another.

His last and eleventh trip to  
"jail time" was for ten years. He  
"put up" seven years of the ten,  
and on October 25, 1926, he was  
granted a pardon by Governor  
Miriam A. Ferguson.

Johnson said, when he was not-  
ified that he had received a par-  
don, "I have been in the pen so  
long that I don't know anything  
else but I am going to learn some-  
thing this time and stay out. All  
you white folks think I'll soon be  
back, but I'm telling you that you  
just might as well close dis heah  
joint down if you wait for me to  
come back. Boss, I'm gone for good  
dis time. I have helped you all  
enough around here."

So far he has kept his promise.  
Bill's white head is still missing.  
Bill was born in Alabama in 1848  
and was one of a large slave family.  
After the negroes were set free Bill  
ran away from home and drifted  
into here. He declared that he  
would never have been in the peni-  
tentiary if he had listened to his  
mother who tried to get him to  
stay at home.

According to prison officials Bill  
was a good prisoner, always a  
ready worker and obedient and  
humble. "I reckon I've done more  
work than any body in this world,"  
Bill said as he passed out the gates  
for the last time.

# THE NEW FORD IS READY

The following is from a statement issued by Edsel B.  
Ford, president of the Ford Motor Company:

"The new Ford automobile is now an ac-  
complished fact. The engineering problems  
affecting its design and equipment and af-  
fecting also its manufacture have all been  
solved.

"But before a single car of the new type  
is offered for sale to the public each part  
will have been tested under every condition  
which we have been able to discover in more  
than twenty years of building automobiles  
for use all over the world.

"We know now exactly what this new  
car is. We have built a number of these  
cars and they have been performing even  
better than we had hoped for under a va-  
riety of conditions.

"Some of the things we have discovered  
already in the test of these new cars are  
are interesting.

"We have accomplished with them a  
speed of 65 miles per hour—which is slight-  
ly higher than we had expected.

"We have found that they can be driv-  
en for hours at an average speed of more  
than fifty miles per hour without discomfort  
to driver and passengers and without harm  
to motor and other equipment.

"In a recent test one of these new cars  
was driven 110 miles in 2 hours. During the  
first half hour the car traveled 27 miles. The  
car covered exactly 56.1 miles the first hour  
of the trip.

"We have known from the beginning that  
this new Ford would be a handsome car. Ex-  
periments have been made with a wide va-  
riety of color schemes and body designs and  
all these have been decided upon."

Your order placed now will assure you of reasonably early delivery—  
Buying will undoubtedly exceed the supply as soon as the new car is  
shown.

## FAMILY REUNION OF KERENS COUPLE HELD AT TRINITY

Special to the Sun.

Kerens, Texas, Aug. 20. Perhaps one of the biggest family reunions was held Sunday at the Trinity Episcopal church, known as Bazaar Crossing, 7 miles northwest of Kerens, when Mr. and Mrs. J. B. Howell and family of this city met with a large number of their relatives and enjoyed a big dinner on the ground, and remained to gether during the day.

The large family of Kintfolk met at 11 a. m. Sunday and did not disband until about 1:30 o'clock that afternoon. Conversation among members of the family had much to do with the history of the Howells and many pleasant events were brought to which held much amusement for them. Pictures were made both in singles and groups, and swimming in the river was enjoyed.

This was the first time members of Mr. and Mrs. Howell's family had been reunited in 27 years. With the exception of Mrs. J. A. Hardin and family of Eastland and Mrs. C. C. Howell, and also with the exception of such grand children as Mrs. Hardin's children, Mrs. J. A. Moore, the family reunion was 100 per cent. Those present were: Mrs. C. C. Howell, Kerens; Mr. and Mrs. Folsom Crockett and family, Chaffield; Mr. and Mrs. G. W. Howell and family, Kemp; Mr. and Mrs. Boyd Howell and family, Spur; Mr. and Mrs. Oscar Cook and daughter, Corsicana; Mr. and Mrs. Bruce Coates, Jr., and family, Kerens; Mr. and Mrs. J. C. Howell, Kerens; Mr. and Mrs. J. B. Howell and daughter, Irma, Kerens; Mr. and Mrs. L. A. Moore and son and daughter, Chaffield; Mr. and Mrs. J. A. Moore, Navaroches; Mr. and Mrs. Elmin Howell, Kerens.

Friends of the family attending the occasion were: Miss Brownie Brown, Frost; Miss Ethel Mae Cook, Corsicana; Mr. and Mrs. Ed Williams and Barnett Childers, Kerens.

## COUNTY NEWS

### KERENS

Special to the Sun.  
Kerens, Texas, Aug. 20. Judge Warren Hicks of Corsicana and Commissioners Jack Megarity, Ben Guynes and J. H. Collins were in Kerens Tuesday afternoon.

Mr. and Mrs. Claud Cherry and little son, Ernest of Dallas visited their mother, Mrs. E. E. Cherry Sunday.

Mr. and Mrs. Leo Kirk of Dallas spent Sunday with Mrs. E. E. Cherry in this city.

Mr. and Mrs. J. B. Rogers of Marshall were in Kerens last week visiting the former's sister, Mrs. E. E. Cherry.

Messames W. H. Miller and C. S. Estes returned Monday from a five-week's visit with their daughter and sister, Mrs. Jim Garrison at Galveston.

Mrs. Jack Reed returned Sunday from Mineral Wells where she spent three weeks with her parents, who are spending the summer in this city.

Lizab Crowley, who is working for the West Texas Utility Company at Big Lake, came in the latter part of last week and spent a few days with her parents, Mr. and Mrs. W. L. Crowley.

Mr. and Mrs. Dick Bruner returned Sunday from Los Angeles and other places of interest in California where they enjoyed about a week's trip. The trip was made in their automobile, and they report a very delightful time.

Mr. and Mrs. Earl Crouch of Dallas came in Tuesday to spend a few days with relatives and friends.

Mrs. W. H. Kimes, Miss Dana Kimes, Mr. and Mrs. O. B. Humpal, Mrs. Hazel McClung and son, Ash Jr., and Randolph Smith spent Sunday in Barry with the former's daughter, Mrs. Luther Boswell.

Mrs. C. K. McLean and grand daughter, Velma Mead of Waco spent last week with the former's sister, Mrs. H. W. Kimes.

Mrs. W. A. Eaves of Palestine came in Sunday to spend a few days with Miss Estelle Foster and daughter, Estelle left for Waco Tuesday morning for a brief visit with friends.

Eulan Atkins, Hoyt Dixon and Gerald Lynch returned Saturday from an automobile trip to Crane, Upshur county. They visited in San Angelo on their trip out, and returned to Kerens by the way of the Fort Worth and Dallas. They report an enjoyable time.

L. A. Pugh went to Dallas Saturday and was accompanied home by his wife's sister, Mrs. Albert Olson of Jersey City, N. J., who was visiting her parents in Paris, and Mitchell Hahn and sister, Isabelle, of Paris, nephew and niece of Mrs. Pugh. They will spend several days in Kerens.

Mrs. L. Murphree and children returned from Wills Point Sunday after visiting the former's sister, Mrs. B. E. Ford. Mr. Murphree went to that place to drive them home in their automobile.

H. O. DeJournett was in Corsicana Tuesday on business.

Mr. and Mrs. W. H. Pluker of Roane were here Wednesday visiting her grandmother, Mrs. Harry Kimes.

Mrs. J. M. Stevenson and daughter, Mary Fern and Miss Mattie Stevenson returned Wednesday

from Dallas where they spent a few days with relatives.

Mr. and Mrs. Herman Stevenson of Thibod, Okla., are here visiting the former's parents, Mr. and Mrs. W. R. Stevenson.

Mr. A. E. Etheredge visited in Corsicana Tuesday.

Mr. and Mrs. Floyd Goodwin went to Tom Bean Sunday to visit the former's mother a few days.

Russell Davis of Corsicana was here Wednesday visiting friends and attending to business.

Mr. and Mrs. T. E. Mann and children returned Sunday from Walnut Springs where they spent a few days with Mrs. White's mother, Mrs. J. H. Cook.

Mr. and Mrs. J. R. Smith and children motored to Trinidad Sunday and viewed the big generating plant of the Texas Power & Light Co.

Misses Valley Smith and Mabel Abbotton and Messrs. Eldridge and Clyde McDuff motored to Corsicana Sunday.

Howard Baker was in Arlington Tuesday on business.

Mr. and Mrs. J. R. Lowe and son, Morgan of Chandler returned to their home Monday after a visit with their son and brother, Rold Lowe and family.

Mrs. Robert Lowe and little daughter went to Athens Monday to spend a few days with their parents, Mr. and Mrs. B. C. Hall.

## AFRAID TO EAT

**Bloating Spells, from Indigestion, Put an Oklahoma Man in a Miserable Fix, But He Found Relief.**

Swink, Okla.—In describing how he suffered from indigestion, Mr. S. T. Strain, of this place, says: "I have been a user of Black-Draught for four or five years. I have been taking it for stomach trouble. I suffered after eating with bloating and a 'tight feeling'."

"I had spells when I could not eat much of anything. I had severe headaches. I would be nauseated and hurt a lot. I was in a pretty bad fix."

"I began taking Black-Draught. It seemed to help me wonderfully. I didn't find anything that benefited me as Black-Draught did. I certainly can recommend it."

"There were times when I just did without anything to eat until I was so weak to go. I was just miserable, and when I ate, my system seemed clogged."

"I had severe headaches. So didn't know just what to do. I new I couldn't work if I didn't eat, seemed like what I spit up was bitter as could be. I took Black-Draught pretty regularly and got where I could eat, and I don't have to take it so regularly now." NC-177

## WILLIAMSON, W. VA., POLICE BATTLED IN STREET EARLY TODAY

By Associated Press.

Williamson, W. Va., Aug. 19.—Two factions of the Williamson police force met in the street early today, and a gun battle ensued, during which two officers were killed.

D. W. Doerfield and Harvey McGuire were the victims of the shooting. Julius Lawson and James Kirkpatrick surrendered to county authorities and were placed in jail.

Strife in the police department had existed for some time. One force claimed to be the "regulars" while the others were known as the "deposed" officers. The latter, however, continued to function.

Doerfield and McGuire, among the "deposed," attempted today to tag a milk truck for not displaying a light. Lawson and Kirkpatrick, "regulars," were present at the time. An argument ensued and the pistol fight followed.

## UNIVERSITY TEXAS PROFESSOR COLLECTS POISONOUS SNAKES

Special to the Sun.

Austin, Texas, August 19. Collecting poisonous snakes is the hobby of A. W. D. Hamilton, instructor in zoology at the University of Texas. Poisonous snakes, however, are not the only animals which Hamilton collects. For his doctor of philosophy thesis this spring, he made a study of the reproduction of the armadillo and he captured more than forty of the animals for his study.

Hamilton also collects other animals for the department of zoology and while looking for the armadillo he found many other specimens. The most favored of his collection, though, are his poisonous snakes, which he has bottled in a preservative for his own laboratory.

Hamilton's experiments with these reptiles occupy much of his spare time when he extracts the venom and crystallizes it. This poison he uses for tests on birds and small animals, experimenting to find how much of it is necessary to cause death.

Hamilton taught during the first term of the summer session at the University, leaving at the beginning of the second term to teach in Texas Technological College at Lubbock. He will not return to the University this fall instead, he will go to the University of Indiana at Bloomington where he will be assistant professor of zoology during the coming year.

## MUCH CO-OPERATIVE MARKETING DONE IN TEXAS LAST YEAR

By Associated Press.

College Station, Texas, August 19. Business amounting to more than \$5,000,000 was done in Texas co-operatively last year by Farmer's associations, groups and committees in selling and buying, according to a statement issued here by the Extension Service, A and M. College.

The report is based on reports of county agents who aided directly or indirectly in these enterprises, but does not include the work of the Texas Farm Bureau Cotton Association.

The profits reported from these transactions were more than \$900,000. Co-operative sales constituted more than 90 per cent of the total business. About 30 per cent of it was transacted by associations or groups formed in 1926.

"Right at present, the statement recites, bringing the subject down to date, there is more activity in co-operative marketing, particularly of poultry products, than in many years. The spread of co-operative marketing is in the hands of local associations with occasionally a federation of a number of these locals. In nearly every case a quality product is made the foundation plank in the organization, and in many cases the membership is very carefully selected. While only the future can tell the outcome of these ventures, it is of greatest interest to know something of the beginning now being made in this line."

Hogs Are Shipped  
In Travis county, it is recited, ten members of the county farm association shipped a car of fat hogs to Fort Worth and received \$9.10 per hundred with expenses averaged .58 cents per pound. Two cents more per pound were netted than would have been received in Austin.

In Grimes county three cars of fish potatoes were shipped co-operatively. The farmers, sacked, graded and loaded them and arranged with an Anderson merchant to handle them. The three cars netted the farmers more than \$2,000 with the small potatoes left for home consumption. It was accomplished in the face of a probable potato surplus.

In Dickens county two cars of mixed hogs and cattle netted farmers \$2,700. In Hansford county the wool crop was marketed co-operatively at about 22 cents per pound which, according to one grower, was about four cents more than he received last year in the St. Louis market. In Denton county eggs sold co-operatively in June brought a top price of \$7 per case at Dallas and the price locally went up from 5 to 7 cents per dozen. In Jim Wells county two cars of melons among several others, brought from 25 to 35 cents per hundred above local prices.

Market Eggs Co-Operatively  
McLennan county reports another co-operative plant to market eggs. The eggs are sold under a brand and the business is said to be growing as fast as farmers are tending their flock of roosters, which is the first requirement of the association. Infertile eggs, as the time this report was made, were bringing 18 to 20 cents per dozen in Central Texas as compared with 11 to 12 cents for fertile eggs. Before this movement was begun, the report said, only one cent dozen premium was paid for infertile eggs and in some cases no premium at all. In Shackelford county at least 25 flock owners are guaranteeing their eggs as compared with none a year previous who produced and stamped infertile eggs.

In Rusk county a poultry association has been formed with 16 of the largest producers in the county as members and in Falls county the eggs are concentrated at one point and trucked to Waco. Each member agrees to eliminate all roosters, to collect eggs daily and to deliver only clean eggs weighing 20 ounces to the dozen. A local inspecting committee investigates each applicant and upon favorable recommendation, the producer receives a card entitling him to marketing privileges.

R. R. Lancaster, rural organizer, explaining the methods pursued in organizing co-operating marketing association, says the "relationship of the Extension Service to those associations is little different from the relationship between the county agent and the farmer in other matters."

Calcium arsenate for use in poisoning the cotton worms may be obtained at the Chamber of Commerce as well as through local distributing agencies, according to an announcement made by that organization Friday morning. Henry Gentry, Navarro county farm agent, went to Dallas Thursday and arranged to have a car load of the poison shipped to Corsicana to be used in fighting the menace to the cotton crop.

The poison may be obtained from the Chamber of Commerce in 100 pound drums for \$7.50 per drum. Several thousand pounds of the poison have already been used, and it applied at once Gentry said that the pests would be materially checked.

Three Navarro county batteries of the 132 Field Artillery, returned from the annual encampment of the Thirty-sixth Division at Palacios Saturday night after a fifteen day period of intensive training. The batteries were the Headquarters Battery, Captain Festus Pierce, commanding; Battery D, Captain John J. Garner, commanding, both of Corsicana; and Battery C, of Kerens, Captain Hal Johnson by command.

Headquarters Battery won two citations at camp, one for the largest percentage present, having fifty-two out of the fifty-five men allowed, and another for laying and handling of lines of field communication.

Surviving are her husband and three daughters.

Mrs. P. C. Townsend was able to be moved to her home Friday from the Corsicana Hospital and Clinic, following a major operation several days ago.

"Corsicana Has It."

## T. & P. LOCOMOTIVE BOILER EXPLODED AT EARLY HOUR FRIDAY

By Associated Press.

Texarkana, Ark., August 19.—Charles D. Millis, engineer of Texarkana; W. C. Hughes, fireman, and C. Burns, brakeman, both of Bonham, Texas, were instantly killed at 6:30 a. m. Friday, when engine 311, pulling Texas and Pacific mixed train number 45 from Texarkana to Shreveport blew up about three miles north of Shreveport.

Conductor P. J. Hackett, Texarkana, stopped a motorist and rode into Shreveport to make a report and order the wrecker out of Marshall to clear the line.

At the place where the explosion occurred the tracks are about 250 feet from the Moorings about highway.
